FORD CONNECTED WALLBOX

British Gas
centrica

Enjoy the convenience of simple and fast charging at home with a Ford Connected Wallbox. Designed for use with Ford Plug-in Hybrid Electric vehicles or Battery Electric vehicles, enjoy much faster charging times than using a domestic household socket. The Ford Connected Wallbox can also be controlled remotely from the palm of your hand using the FordPass App. Our Ford approved installation partner is British Gas / Centrica who will support you at every step, from the initial virtual or physical survey, to ongoing support after completion. British Gas / Centrica engineers are fully trained to help you make the switch to EV's with hassle-free home charging.

FORD CONNECTED WALLBOX FEATURES

Charging your vehicle at home means you can start each day with a full range. Below you will find some key features of the Ford Connected Wallbox.

- The single socket 7.4kW plug is housed in a durable weather-proof case so it can be installed either indoors or outdoors.
- The unit has a Type 2 Connector which means it is suitable for both PHEV and BEV vehicles.
- A cable dock comes as standard.
- The unit comes with a 7.5m tethered cable.
- The Ford Connected Wallbox has Bluetooth and Wi-Fi capability and is specifically designed to work with the FordPass App.
- Internet connection via Wi-Fi and FordPass App are required for the smart wallbox features.

WHAT HAPPENS NEXT?

1

TWO WAYS TO ORDER

You can order by either requesting a quote when you are ordering your vehicle if you are using the Ford website, or by contacting your Ford Dealer who will refer you to our installation partner British Gas / Centrica. Your Ford Dealer will ask permission for your contact details to be sent to British Gas / Centrica.

2

QUICK QUESTIONNAIRE

British Gas / Centrica will email you a few simple questions about your home and electric vehicle.

3

THE HOME CHECK

This is either a physical visit or a quick video call where you show British Gas / Centrica the circuit board in your home and where you would like to install the charge point.

4

BRITISH GAS / CENTRICA APPLY FOR PERMISSION

If applicable to the installation of your new home charger, British Gas / Centrica will first apply to the Distribution Network Operator (DNO).

5

QUOTATION

British Gas / Centrica will provide you with a final quotation.

6

INSTALLATION DAY

A British Gas / Centrica engineer installs your charge point and answers any questions.

YOU'RE READY TO CHARGE

British Gas / Centrica are still on hand to help you with anything after installation.

BRITISH GAS CONTACT DETAILS

If you have any questions about your home charger, installation date or want to find out about the EV energy tariffs offer, the British Gas EV support team are here to help. Get in touch Mon-Fri, 9am-5pm on: 0333 202 1054

British Gas is an OZEV authorised installer of home chargers and your installation may be eligible for a government grant. This will be confirmed by British Gas during the process. Grants are subject to change.
